PROJECT SUN STREAK (U)

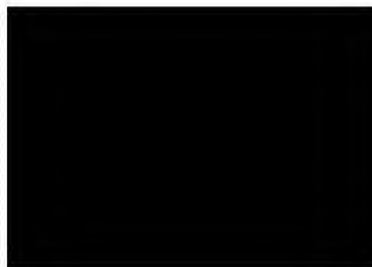

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Session Procedures Report (S/NF/SK)

PROJECT NUMBER: 8715	SESSION NUMBER: 6
DATE OF SESSION: 9 OCT 87	TARGET COUNTRY:
REFERENCE:	MISSION STATUS:
TECHNIQUE UTILIZED: CRV	SOURCE IDENTIFIER: 018

1. (S/NF/SK) Monitor Tasking: No change in tasking; the question of "product end use" was still unresolved and to be readdressed.
2. (S/NF/SK) Source Tasking: Begin the session in Stage IV with an exploration of "product transportation" --describe the transport configuration. Also, return to the "objects origin". Finally, describe the "object's use".
3. (S/NF/SK) Summary: The Source's summary is attached; see sketches, also.
4. (S/NF/SK) Comments: Doesn't seem to be too much more in the way of EEI to squeeze out of the Source.

1. (S-SS) Statistics: Viewer: 018
Session date: 9 OCT 87

2. (S-SS) Except for two drawings (see transcript, page 2) of the object and its container, the perceptions of this session were basically repeats of the previous sessions.

a. The object appeared to be long and cylindrical, with (new perception) a separate piece on one end which had small circles (AOL: bolts?) around its circumference.

b. Again, the container seemed to contain a layer of padding.

c. Tasked with following this particular object to its end point and finding its final usage:

1) I was once again located in a clear area surrounded by very large trees, growing very thickly.

2) There was, once again, a perception of the man wearing an old undershirt outside, on a sunny day.

3) The end usage of the object again brought the perception of a gigantic wall of fire.
